

## DRYWALL SANDING DISC Ø225MM

### Applications

Wood

Metal

Paint

PVC

## PROLINE GOLD

### Product description

Use Agera Tools "Proline GOLD" sanding disc for wall and ceiling sanding machines. Proline GOLD is a high quality abrasive paper to use on paint, roughcast, plaster and wood. With Velcro-type fastening system for fast sheet changes.

The perforated sanding disc for filler and filler compounds, HS top-coat paints and water-based paints, as well as plastics and composite fibre materials.

Sanding disc perforated over entire surface (multihole):

- The sanding dust is vacuumed away completely from the entire surface.
- No clogging, high sanding performance, long service life, uniform grinding finish, high removal rate.

Shorter sanding time and effective working with a sanding performance up to four times that of conventional perforated abrasives. In contrast to conventional perforated abrasives, the hole pattern of the Proline Gold drywall sanding disc will contribute to a dust free sanding operation.
