

AIRNET SANDING SHEET 80x133MM

Applications

AIRNET
DUST CONTROL

PROLINE GOLD

Product description

Proline Gold Airnet sanding sheet provides a powerful dust extraction for virtually dust free sanding. This means a cleaner, healthier working environment, a better finish and a much more pleasant sanding experience. The abrasive sheet can be used by hand or with a machine on primer, filler, paint, lacquer, fibreglass, aluminium, gel coat and plastic in panel repair, spot repair, bumper repair and even new panels.

The open structure and premium bond system means that it can be used wet or dry for the perfect results. The self-gripping backing allows for a quick and easy sheet change. As there is no designated hole pattern it is easy to align to any backing pad which saves time and effort aligning holes.

Product information - Category: wood, metal, pvc and paint.
